

Training & Assessment System Policy

RELEVANT STANDARD(S):

Standards for Registered Training Organisations (RTOs) 2025	<i>Outcome Standards:</i> • QA1 – Training and Assessment • QA2 – Learner Support and Protection • QA3 – Workforce Capability • QA4 – Governance, Monitoring and Continuous Improvement
---	---

Purpose

The purpose of this policy is to establish SNS College of Western Australia's framework for the design, delivery, assessment, monitoring and continuous improvement of its **Training and Assessment System**, ensuring that all training and assessment services:

- meet the requirements of the **Standards for RTOs 2025 (Outcome Standards)**;
- are industry-relevant, learner-focused, and outcomes-driven;
- apply the **Principles of Assessment** and **Rules of Evidence** consistently;
- are delivered and assessed only by appropriately credentialled personnel; and
- are governed through systematic monitoring, evaluation and continuous improvement.

Policy Principles

Principles, Responsibilities and System Controls

Training & Assessment System Principle	SNS Responsibility	Supporting Policies / Procedures / Records
Training and assessment operate as a coordinated system	Design, implement and maintain a documented Training and Assessment System that integrates TAS, assessment tools, validation, industry engagement, workforce capability and continuous improvement.	• Training & Assessment System Policy • TAS Template & Approved TAS per product • Assessment Master Template
Training and assessment are outcomes-focused	Ensure training and assessment enable learners to achieve competence and apply skills and knowledge in realistic workplace or simulated contexts aligned to unit requirements.	• TAS (delivery & assessment design) • Assessment Tools & Mapping Matrices • Industry Engagement Procedure
Assessment integrity is protected	Apply the Principles of Assessment and Rules of Evidence consistently. Ensure assessment decisions are based on documented benchmarks and assessor judgement and supported by sufficient evidence.	• Assessment Master Template • Assessment Mapping Template • Academic Integrity Procedure
Only approved assessment tools and	Approve assessment tools and TAS prior to delivery. Ensure delivery and assessment reflect the approved design and conditions.	• TAS Approval Records • Pre-Assessment

Training & Assessment System Principle	SNS Responsibility	Supporting Policies / Procedures / Records
strategies are used		Validation Records • Version-controlled assessment tools
Learner needs are identified and addressed without compromising standards	Identify learner needs at pre-enrolment and during delivery. Apply reasonable adjustment and support while maintaining unit intent, assessment conditions and evidence requirements.	• Enrolment Policy & Procedure • LLN Procedure • Reasonable Adjustment Procedure • Student Support Procedures
Assessment judgement is consistent and transparent	Require assessors to document assessment decisions, including oral questioning and observational evidence, and provide learners with clear outcomes and feedback.	• Assessment Records • Observation Checklists • Assessor Guides / Benchmarks
Industry engagement informs training and assessment design	Engage with industry to inform training relevance, assessment conditions, simulations, equipment and delivery modes. Analyse feedback and document decisions.	• Industry Engagement Policy & Procedure • Industry Engagement Register • TAS Review Records
Validation assures assessment quality	Conduct systematic, risk-based validation of assessment tools, processes and outcomes within required timeframes. Implement and monitor improvements.	• Validation Policy & Procedure • Validation Schedule & Register • Validation Reports
Workforce capability supports delivery quality	Ensure training and assessment are delivered by appropriately credentialed personnel, with supervision applied and monitored where required.	• Credential Policy • Trainer Monitoring Procedure • Professional Development Policy
Training product transitions are controlled	Manage transitions from superseded or removed training products to ensure learners complete or transfer within approved timeframes and conditions.	• Training Product Transition Procedure • Scope of Registration Records • Learner Communications
Records are accurate, secure and complete	Maintain complete, accurate and retrievable records of training, assessment, validation, learner support and outcomes in line with regulatory requirements.	• Records Management Policy & Procedure • Student Files

Training & Assessment System Principle	SNS Responsibility	Supporting Policies / Procedures / Records
		• Assessment & Validation Records
The system is monitored and improved	Monitor the effectiveness of the Training and Assessment System using validation outcomes, feedback, complaints, audits and performance data. Record and action improvements through CI processes.	• Continuous Improvement Policy & Register • Internal Audit Procedure • Management Review Records

Role Responsibilities

Role	Responsibilities
CEO	Approves this policy and ensures appropriate resources and governance systems are in place to support compliant training and assessment.
Training Manager (Policy Owner)	Approves Training and Assessment Strategies; ensures delivery and assessment align with approved strategies; oversees resourcing, assessment quality, and supervised delivery arrangements.
Compliance Manager	Maintains validation schedules and registers; oversees monitoring, continuous improvement and internal review activities; ensures regulatory alignment of the Training and Assessment System.
Trainers and Assessors	Deliver training and conduct assessment in accordance with approved TAS, assessment tools and policies; apply the Principles of Assessment and Rules of Evidence; document assessment decisions and evidence; participate in validation and professional development.
Supervisors (where applicable)	Provide documented direction and supervision to personnel working under supervision and remain accountable for training delivery and evidence collected.
Administrative Staff	Maintain student, trainer, assessment, validation and continuous improvement records; support enrolment, LLN screening and learner support processes.

Monitoring and Improvement

SNS monitors and evaluates the effectiveness of its Training and Assessment System through:

- **pre-assessment and post-assessment validation** activities;
- review of assessment outcomes and evidence quality;
- learner feedback, complaints and appeals;
- industry engagement outcomes;
- internal audits and compliance checks; and
- workforce monitoring and professional development reviews.

Findings, risks and improvement actions are recorded in the **Continuous Improvement Register** and reviewed at least quarterly. Actions are tracked to completion and reviewed for effectiveness.

Version Control

Version Control Table					
Date	Summary of Modifications	Modified by	Version	Date of Implementation	Next Review Date
25/01/2026	Major rewrite to align with Standards for RTOs 2025 (Outcome Standards). Policy reframed to govern the Training and Assessment System, strengthen assessment integrity, credential alignment and systematic monitoring.	SNS College	V3.0	25/01/2026	25/01/2027
